- Software Implementation & Training

Why is it free? What is the catch?

It is pretty simple, creating a win-win situation for both of us, we make money only when you make money. That means you get to use **all of eZee solutions and services for free** and you only pay a small transaction fee on online bookings.

2% Transaction fee on bookings from channel manager

4% Transaction fee on bookings from booking engine

Keeping ceiling cap on your expenses, the monthly bill will never exceed the amount of monthly subscriptions

How it works
